TOY WONDERS' TOY DIRECTORY

Action Toys Subcategory:

The action toys category encompasses many different types of toys. These toys are not only powered by a child's imagination, but a great majority of these action toys are also powered by batteries. For your convenience, the number of batteries and type are stated in the description, and whether or not batteries are included. Click on one of the subcategories below to see more.

Blister Carded Toys & Hang-up Toys Subcategory:

Toy Wonders is a toy importer and a toy wholesale distributor of blister carded toys too. A great majority of impulse buy toys are packaged either on a blister card or in a poly bag with a header. Most of these types of toys find their way onto peg hooks, spinner racks, or in store bins. We have broken this category down into many subcategories. Click on the appropriate subcategory to see more.

Dolls & Play sets Subcategories:

Toy Wonders is a toy importer and toy wholesaler of children's toys. Dolls have been a mainstay in the toy industry. If we look back in history, dolls go way, way back --even before recorded history. Because of the longevity and nurturing appeal, every toy distributor and retailer will have some representation here. However, since this category is very focused on only one gender, it is vital that you focus your attention here and understand your customer base well; after all, you are only targeting half the children's population with this category. Knowing the answers to these questions will make it easier to select the items for his category:

1. In terms of race, what type of people do you service?
2. What type of space can you allot towards this category (e.g. wall, shelf, or counter)?
3. What price points do you need to be at?

Educational Toys & Musical Toys Subcategories:

Parents of all types have always placed extra value on toys that teach. Almost all the educational toys that we market are geared towards adults and children over the age of three. Many ambitious parents push the learning envelope with their children. For those toys geared toward infants and toddlers, we've put the toy's specific age recommendations in their descriptions. For marketability and safety reasons, these age recommendations should be strictly followed.

Sports Subcategories:

Toy Wonders is not just in the toy wholesale business but offers at wholesale a variety of Sports balls and sport play sets. Not only does ball playing build hand eye coordination, dexterity, and team spirit (at times), these balls promotes good old fashion exercise. Click on a subcategory to see more.

Signature Models - Lincoln Zephyr (1939, 1:18, Black) 18102

Our Products: [Vehicle Models](#) > [Lincoln](#)

Item#: 18102BK

18102BK SIGNATURE MODELS 1939 Lincoln Zephyr. 1:18 scale diecast model car. This 1939 Lincoln Zephyr is a diecast metal classic oldies with free wheeling, steerable front wheels, highly detailed engine and interior, and opening doors/hood/trunk. Sits on display plaque. This 39 Lincoln Zephyr is manufactured by Signature. Individually packed in a window box. Box measures 14"W x 6"H x 7"D. 18102 in BLACK color.

This is the 1939 version of the model first introduced in 1936 to help Lincoln recover from the effects of the Great Depression. Although still a luxury car, the Zephyr was priced at half that of Lincoln's previous K line. The model was based on a concept car designed by Dutch-born John Tjaarda and was named after the popular streamline run by the Chicago, Burlington & Quincy railroad. Although the Zephyr was built on a fairly routine chassis, it had a sophisticated 4.4-liter V-12 engine and a body that Edsel Ford himself insured was leading-edge enough to win praise from the European press and other automakers.
