## TOY WONDERS' TOY DIRECTORY

### Action Toys Subcategory:

The action toys category encompasses many different types of toys. These toys are not only powered by a child's imagination, but a great majority of these action toys are also powered by batteries. For your convenience, the number of batteries and type are stated in the description, and whether or not batteries are included. Click on one of the subcategories below to see more.

[r/c radio controlled](#)

[ride-on vehicles](#)

[robots](#)

[swimming toys](#)

[things that go](#)

[trains fire-engines more](#)

[wind ups](#)

[wire controlled](#)

### Blister Carded Toys & Hang-up Toys Subcategory:

Toy Wonders is a toy importer and a toy wholesale distributor of blister carded toys too. A great majority of impulse buy toys are packaged either on a blister card or in a poly bag with a header. Most of these types of toys find their way onto peg hooks, spinner racks, or in store bins. We have broken this category down into many subcategories. Click on the appropriate subcategory to see more.

[back to top](#)

## Dolls & Play sets Subcategories:

Toy Wonders is a toy importer and toy wholesaler of children's toys. Dolls have been a mainstay in the toy industry. If we look back in history, dolls go way, way back --even before recorded history. Because of the longevity and nurturing appeal, every toy distributor and retailer will have some representation here. However, since this category is very focused on only one gender, it is vital that you focus your attention here and understand your customer base well; after all, you are only targeting half the children's population with this category. Knowing the answers to these questions will make it easier to select the items for his category:

1. In terms of race, what type of people do you service?
2. What type of space can you allot towards this category (e.g. wall, shelf, or counter)?
3. What price points do you need to be at?

[animated & musical dolls](#)

[big dolls](#)

[counter display dolls](#)

[fashion doll accessories](#)

[gift sets](#)

[play sets](#)

[rack dolls](#)

[back to top](#)

## Educational Toys & Musical Toys Subcategories:

Parents of all types have always placed extra value on toys that teach. Almost all the educational toys that we market are geared towards adults and children over the age of three. Many ambitious parents push the learning envelope with their children. For those toys geared toward infants and toddlers, we've put the toy's specific age recommendations in their descriptions. For marketability and safety reasons, these age recommendations should be strictly followed.

[infant & toddler](#)

[musical](#)

[Navystar](#)

[potpourri](#)

[teaching & learning](#)

[telephones, clocks & more](#)

[back to top](#)

## Sports Subcategories:

Toy Wonders is not just in the toy wholesale business but offers at wholesale a variety of Sports balls and sport play sets. Not only does ball playing build hand eye coordination, dexterity, and team spirit (at times), these balls promotes good old fashion exercise. Click on a subcategory to see more.

## Signature Models - Cord 810 (1936, 1:18, Black) 18108

Our Products: [Vehicle Scales](#) > [1:18 Scale](#)

Item#: 18108BK

18108BK SIGNATURE MODELS presents the 1936 Cord 810. 1:18 scale diecast model car. This rare 1936 Cord 810 measures 11"L x 4"W x 3.5"H. Features free wheeling, steerable front wheels, a highly detailed engine and interior. Felt carpeting. Opening doors, hood, trunk. This Cord 810 sits on display plaque. Individually packed in a window box. Box measures 14"Wx 6"Hx 7"D. The Cord 810 is manufactured by Signature Models; ref. no. 18108 in BLACK color.

Designed by Gordon Miller Buehrig as the Baby Duesenberg, the Cord was hailed as being advanced for its time, both in design and technical features, but its appeal proved to be too short-lived and too late to save the company on its last gasps from the Depression. After six months of debating the proposed design, Duesenberg's boss, E.L. Cord, left Buehrig just four months to build the cars needed for the 1935 New York Auto Show, where it was awarded the title of the most beautiful car; luckily, however, no one at the show bothered to raise the hood because the engines were not ready. Buehrig was praised for beaking all the rule sin auto design. The Cord was the frist American car to feature hidden pop-up headlights, hidde door hinges and a one-piece rear-hinged hood. The Cord's most distinctive styling feature was its so-called coffin-nose hood with its seven wrap-around chromed ribs or louvers, making it the first water-cooled car to dispense with the front grille and radiator shell. Other advanced features included front-wheel-drive, a four-speed semi-automatic transmission and a V-8 built to order by aircraft engine manufacturer Lycoming, also part of E.L. Cord's empire. The leading edge of the Cord's front wheels actually preceded the hood because of the transmission placement ahead of the engine, making the car appear as though it was leaping forward even when standing still, and making it well balanced. The interior was equally stunning, dominated by an instrument panel reminiscent of an airplane. At both ends of the dashboard were small cranks to raise or lower the hidden headlights given that power-assisted motors were not yet available. However, the car's appeal proved to be its downfall with the company taking production short cuts to meet the unprecedented orders; the quality problems were eventually fixed but too late to save the marque and E.L. Cord's other automotive ventures, the Auburn and Deussenberg. The last Cord came off the assembly line August 7, 1937.
